The New SYM Adventure Scooter Siblings

- **Flag-shipped adventure machine: ADXTG 400**
- **ADX 300**

Ignite Your Epic Adventure

The trailblazer adventure scooter: ADXTG 400

SYM is showcasing the class-leading 399 c.c. adventure scooter, the ADXTG 400.

Originated from “*the art of fusion*” MAXSYM TL mechanically, the SYM engineering experts evolved the on-road maneuverable structure into the full spectrum multipurpose machine.

Inspired by the ancient predator smilodon, as known as “saber-toothed tiger”, the ADXTG 400 is set to be able to across variety of terrain. The chassis and ergonomics were designed for multipurpose use and are suitable for reaching farther destinations.

- **Euro-style high rigidity aluminum swing arm combines centralized Sanyang Multilink Suspension system.**
- **Tool-free adjustable windscreen set for street and adventure riding positions.**
- **Adjustable handlebar to match various rider figures.**
- **Rigid tapered handlebar designed for none-pavement mobility.**
- **Handlebar guards provide hand protection.**
- **Comfortable long suspension travel distance.**
- **MAXXIS M6017S dual sport tires for clawing pavement and gravel roads.**
- **No-compromise off-road standing position is intensively considered.**
- **Engine sump guard is standard equipped to ensure cross-country confidence.**
- **USB quick charge socket energizes navigation gadgets.**

The robust rider aids are inevitable for exploring the unknown territory. The ADXTG 400 is equipped with state-of-the-art BOSCH off-road ABS and EBL to make journeys cheerful and safer. With the assist of off-road ABS, it allows explorers to have precise brake control on low friction surfaces in the wild.

- **SYM's first ever off-road ABS provided by BOSCH.**
- **The off-road mode ABS (rear ABS off, front ABS tone down) and turned off TCS set to be a dagger to pass through the unpredictable terrain.**
- **Emergency brake light (EBL) offers enhanced alert when hard deceleration at speeds above 70 km/h.**

Now, pack your bag and get away from your comfort zone!

The Adventurized Maxi City Scooter

ADX 300

Extended from the urban mid-size scooter Joyride 300 and imprinted with modern adventure soul, SYM designed the mild adventure scooter for day-to-day commuters. The ADX 300's frame and suspension are tuned to adapt suburban uneven streets.

- **Strengthened middle part of the frame body for higher rigidity.**
- **Redesigned riding ergonomics that is good for outdoor recreation.**
- **Lengthened front and rear suspension travel provides cushy riding comfort.**
- **Large 16 litre fuel tank expands trip range and decreases fuel replenishment.**
